

CROSS SECTION

Display Guidelines

Cross Section 2011 is a display of the work of AIA Fort Worth AIA and Associate members, and aimed at a wide audience. The guidelines are kept to a minimum in order to create a varied exhibit within a unified framework. This year the guidelines are aimed at creating a more “raw” display highlighting the design process. Therefore, ***photographs of finished buildings are not a part of the display.*** Construction images might be incorporated in order to support the drawings. Photographs of models, computer images, diagrams, sketches, and context images are appropriate. We will have space to display models.

Please display only one recent (preferably 3 years old or less) project. Drawings need to be mounted on 30” x 30” x 3/16” thick white gator board. Label the back of the panel with the Panel title, Firm Name, Contact Person, Contact Phone, and Contact email. Note: hanging system requires 3/16” thick board.

While it may be useful to include some explanatory text within the display, firms are asked to avoid promotional statements of any kind. The use of firm names, logos or contact information within the display is prohibited. Text should be appropriately sized to the image.

A separate Identification Panel will be produced by the Cross Section committee. Please provide the following information: Firm Name, Project, Location, Completion Date, Client (if any), and a 150-word maximum project description. The information can be emailed as a Microsoft Word document to ndward@swbell.net
